

Men’s Transitional Living Program

Patient Application

Transitional Living is a Low Intensity Residential setting for adult men who are affected by the disease of addiction and who could benefit from short-term living in a semi-structured environment. The program’s therapeutic approach is based in the 12-step recovery model of AA/NA. Patients are required to be employed or employable and participate in individual and family therapy, in addition to group therapy 5 nights weekly, a Book Study, and attend at least three 12-step meetings per week. Your employment can not conflicted with the group therapy nights 6pm to 8pm. Patients comply with Halfway House expectations and experience an environment that enhances one’s recovery from addictions, allows for building of meaningful relationships within a community, and creates a lifestyle that matches values.

As part of the application process we require an essay from patients explaining interest in the Transitional Living Program. Please write a short essay including the following areas.

Brief personal history:

Please describe your current recovery including length of sobriety, whether you currently have a sponsor or willingness to select a sponsor, amount of 12-step work completed, and support persons assisting in your recovery.

What recovery skills have you learned and how would you use them in your daily life?

What motivates you to live a life of recovery?

Tell us in your own words what personal qualities you would be able to bring to Grandview Men's Transitional Living Program and what you hope to gain from this living environment.

Briefly describe why you are looking into a recovery based housing.

Insurance?

Are you employable?

Your age.
